**The first webcam to combine superior optics and professional quality audio in one neat package.**

The Eyeball is Blue's revolutionary new webcam with high quality audio and Super HD quality video. It's the perfect package for instant messaging, video conferencing, social networking and more. The Eyeball features Blue's superior quality condenser capsule, premium lens, Super HD video, camera off privacy position, and driverless installation. Using the same integrated stand and case design as Blue's popular Snowflake USB mic, the Eyeball also includes a custom designed monitor adapter, making it simple to position it on virtually any laptop or desktop monitor.

**KEY FEATURES :**

- Blue's Superior Condenser Capsule for High Quality Sound • Super HD Video Resolution
- Camera Hide Option for Privacy • Integrated Stand and Case • Driverless Installation on Windows & Mac • Monitor Adapter for Optimal Positioning • USB Cable Included!
